The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
Status					
 Responsive to communication(s) filed on 30 November 2006. This action is FINAL. Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. 					
Disposition of Claims

DETAILED ACTION

1. Claims 9-16, 25-32, 41-48, 58, 59, 62, 63, 66, 67, 71, 73, and 75 are pending. Claims 9, 25, and 41 have been amended in this communication filed 11/30/06 entered as Amendment, IDS, and RCE. The IDSs filed 07/29/05 and 11/30/06 has been considered.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/30/06 has been entered.

Title Objection

3. The title of the invention is objected to because nothing in the claims mentions an auction. Suggestion to either incorporate auction into the claims or change the title of the invention to the following: "METHOD AND APPARATUS FOR FACILITATING USER SELECTION OF A CATEGORY ITEM IN A TRANSACTION".

Drawings

4. The drawings are objected to because drawing fig's 2-4 and 7 do not comply with the margin guidelines for drawings. See MPEP 37 USC 1.84(g). The drawings are further objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the subcategories hierarchically related to

a selected category entry within a category hierarchy data structure to be hierarchically displayed to a user in a subcategory field in a display window is not found in Applicant's drawing figures. These features must be shown or the feature(s) canceled from the claims. No new matter should be entered.

A "hierarchy" is defined as "an arrangement in such a way that some of the items are above or below others in a tree-like structure. Examples of hierarchies include the organizational chart of a corporation, the arrangement of directories on a disk, and the arrangement of windows on a screen (because some of the windows are within others). The root of a hierarchy is the main item that is above all of the others, such as the CEO of a corporation, the root directory of a disk, or the window that comprises the whole screen.

Many menu systems are arranged hierarchically, as menus within menus."

Applicant's fig. 7 does not look like a hierarchy as the Examiner has seen many hierarchical structures during nine years of examining applications and having examined for over four years in database, document processing and display. A hierarchy or hierarchical display is as shown from the drawing included from page 384 (fig. 226) of "Barron's Business Guides Dictionary of Computer and Internet Terms", Fifth edition, Douglas A. Dowining, Ph.D., Michael A. Covington, Ph.D., and Melody Mauldin Covington; 1996. Also included are pages 175-177, 383, and 384.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version

Application/Control Number: 09/491,703

Art Unit: 3694

of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office

Page 4

Claim Objections

action. The objection to the drawings will not be held in abeyance.

5. Claim 9 is objected to because of the following informalities: Claim 9 recites "responsive to said detection ..., ..., ...". This claim is in the improper method claim format. The claim limitation should begin as follows: "responding to said detection of said selection ..., ..., ...". Appropriate correction is required.

Claim Rejections - 35 USC § 112

- 6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 7. Claims 9-16, 25-32, 41-48, 58, 59, 62, 63, 66, 67, 71, 73, and 75 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly

point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant's claim limitations do not mention or disclose or suggest an auction.

The claim limitations are broad enough to read on any hierarchical structure,
categorization of items, and displaying to a user (graphical user interface (GUI)).

Response to Arguments

8. Applicant's arguments with respect to claims 9-16, 25-32, 41-48, 58, 59, 62, 63, 66, 67, 71, 73, and 75 have been considered but are moot in view of the new ground(s) of rejection in view of the filing of an RCE.

Inquiries

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ella Colbert whose telephone number is 571-272-6741. The examiner can normally be reached on Monday, Tuesday, and Thursday, 5:30AM-3:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Trammell can be reached on 571-272-6712. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

Application/Control Number: 09/491,703 Page 6

Art Unit: 3694

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
